The intensive support service

Information for people who
use our services

The staff in the intensive support service are part of the community learning disability team.

The staff in the service will work with you and the people who support you. You will still have support from your care coordinator.

The staff in the service will help people who become unwell and are finding it difficult to stay at home.

The staff will make a plan with you and the people who support you.

The staff want to help people so that they can get better at home.

The plan will help you to make changes so that you start to feel better.

The staff want to help people so they **do not** have to go into hospital.

If people do have to go to hospital we want to help people to get home quickly.

The staff can deliver training to the people who support you. This means people can support you better.
