### Cheshire and Wirral Partnership NHS Foundation Trust Staff Equality and Diversity Monitoring Report April 2015 – March 2016

## Executive Summary Introduction

This report details an analysis of the CWPs workforce for April 2015–March 2016. CWP are pleased to say that the CWP workforce reasonably reflects the characteristics of local populations across the areas that CWP serves; there has been a slight increase over the last twelve months in the number of staff from Black and Minority ethnic backgrounds 0.5% and the Trust overall is still reasonably reflective of communities services are delivered from. The challenges for the Trust in improving representation is understanding the distinct differences in community make up across the large geographical area we serve and working with the number of small and locality based services that are spread out across the Trust.

CWP aim to provide a personal, fair and diverse working environment for all of our staff and the majority of the Trusts evidence from Staff survey results to demographic information suggest this is felt by the majority of our staff too.

### Staff Profile Highlights

Headlines: As of March 2016 CWP employed 3543 people of which:

- 79.25% are women
