3. Trust Legal Status

CWP was authorised by Monitor as a foundation trust from July 2007 and agreed our FT constitution as part of our terms of authorisation. A central feature of being a foundation trust is having an elected Council of Governors and a foundation trust membership.

4. Aims and Objectives

Cheshire and Wirral Partnership NHS Foundation Trust (CWP) provides mental health services for children, adults and older people, as well as learning disability services.

We are also contracted to deliver community physical health services throughout Western Cheshire. Services provided cover planned, unplanned and children's care and are delivered in a wide range of settings from community clinics, GP practices, nursing homes and patient's own homes.

The 6Cs are our Trust values;

- Care
- Compassion
- Courage
- Communication
- Competence
- Commitment

Our vision is "Working in partnership to improve health and well-being by providing high quality care".

We do this by;

- Improving care, health and wellbeing.
- Working within communities.
- Working in partnership.
- Delivering, planning and commissioning services.
- Making best value.
- Reducing inequalities.
- Enabling our people.
- Improving and innovating.

5. Regulated Activity, Service Types and Person Bands

CWP is regulated to provide the following activities;

- Treatment of disease, disorder or injury
- Assessment or medical treatment for people detained under the Mental Health Act 1983
- Accommodation for persons who require nursing or personal care
- Transport services, triage and medical advice provided remotely – *transport services equating to involving a vehicle that was designed [or modified] for the primary purpose of transporting people who require treatment, not emergency ambulances.*
- Diagnostic and screening procedures
- Maternity and midwifery services
- Family planning services
- Surgical Procedures
- Personal Care

The following types of services will provide this activity;

- Hospital services for people with mental health needs, learning disabilities and problems with substance misuse (MLS)
- Rehabilitation services (RHS)
- Community based services for people with mental health needs (MHC)
- Community based services for people with a learning disability (LDC)
- Community healthcare service (CHC)
- Urgent care services (UCS)
- Doctors consultation service (DCS)
- Doctors treatment service (DTS)
- Mobile doctors service (MDS)
- Diagnostic and or screening service (DSS)
- Domiciliary care service (DCC)

CWP provide services to the following service user bands;

- Adults aged 18-65
- Adults aged 65+
- Children 0-3 years
- Children 4-12 years
- Children 13-18 years
- People with learning disabilities and/or autistic spectrum disorder
- People with mental health needs
- People with dementia
- People detained under the MHA 1983
- People with an eating disorder
- The whole population

6. Our Services

6.1 Physical Health

6.1.1 Community Nursing including Specialist Nurses

In Cheshire West and Chester, CWP provides community nursing services including specialist nurses which provide quality focused patient-centred care in a variety of community settings through utilising a holistic approach to care. This is to maximise the health potential of not only the individual patient but also addresses the wider health and social care needs of various patient groups and carers.

The principle functions of the service are;

- To provide high quality, culturally sensitive nursing care for people in their own homes or community setting;
- To promote and maintain independent living;
- To promote a co-ordinated approach to hospital discharge that facilitates a seamless service leading to improved health outcomes;
- To reduce the incidence of admission and readmission to hospital by supporting and educating both patients and carers to seek early intervention for potentially debilitating conditions;
- To adopt a public health approach to all areas of practice to reduce ill health and promote healthy lifestyles;
- To promote an evidence based approach to clinical activities thus ensuring the most clinically effective use of resources to improve patient care;

- To promote user involvement in both service planning and delivery.

The following services are included;

- Community Heart Failure Nurses
- COPD and Home Oxygen Service
- Community Matrons
- Continence Advisory Service, Tier 1 and Tier 2 Urology
- District Nursing
- Dressing Clinic
- Macmillan Nursing
- Parkinson's Service
- Tissue Viability Service

Current provision of nursing services is centred on partnership with social care services and is based on a timely needs assessment of all clients/patients. The services work closely with primary care and secondary care services to provide seamless transfer of patient care, enabling them to move smoothly between local health care services with an emphasis on care closer to home.

Community matrons and specialist nurses provide case management and personalised care for patients with complex long-term conditions in order to provide care closer to home, prevent unnecessary admissions to hospital, reduce the length of stay in hospital where appropriate and safe to do so, whilst improving outcomes for patients and their families, and improving quality of life.

Palliative care services, including Macmillan, aim to offer an approach that improves the quality of life of patients and their families facing problems associated with life-limiting illness, through the prevention and relief of suffering by means of early intervention and impeccable assessment and treatment of pain and other problems, physical, psychosocial and spiritual.

6.1.2 Therapies including Intermediate Care

In Cheshire West and Chester, CWP also provides comprehensive therapy services, delivered to the local population in a variety of treatment settings including hospitals, local community clinics, GP practices, leisure centres and domiciliary locations (including nursing and residential homes).

Services include;

- Musculoskeletal Physiotherapy staff
- Community Physiotherapy staff
- Community Occupational Therapy staff
- Podiatrists
- Intermediate Care Services
- Acquired Brain Injury Service
- Palliative Care Therapy Service
- Cardiac Rehabilitation Service
- Pulmonary Rehabilitation Service
- Early Support Discharge Stroke Team

The musculoskeletal service includes orthopaedic and spinal triage which is managed by Advanced Practitioner Physiotherapists who have the training and expertise to see patients who would otherwise have seen an Orthopaedic Consultant in the past.

The community service including physiotherapy and occupational therapy is part of a wider rehabilitation service providing active rehabilitation for patients in their own homes, intermediate care settings and long term residential care. There are specialist teams within the service who provide assessment and treatment for patients with neurological, respiratory or orthopaedic conditions and complex physical problems associated with old age.

6.1.3 Podiatry

This service treats, manages and prevents foot health disorders in those patients who have a recognised clinical need for the service, whilst maintaining independent living and promoting quality of life wherever possible.

6.1.4 Intermediate Care

This service provides an inpatient neuropsychology service at Wirral University Teaching Hospital and highly specialist community services to Wirral, West, Vale Royal, South and East Cheshire CCG's. This includes access to case management, neuropsychology and vocational rehabilitation in the patient's own home or local community. Additionally for West and Wirral CCG's the service manages all specialist private provider ABI rehabilitation placements.

6.1.5 Acquired Brain Injury Service

This service provides an inpatient neuropsychology service at Wirral University Teaching Hospital and highly specialist community services to Wirral, West, Vale Royal, South and East Cheshire CCG's. This includes access to case management, neuropsychology and vocational rehabilitation in the patient's own home or local community. Additionally for West and Wirral CCG's the service manages all specialist private provider ABI rehabilitation placements.

6.1.6 General Practice

Westminster Surgery, Willaston Surgery and Old Hall Surgery provide a comprehensive range of primary care services to their patients in Ellesmere Port and Willaston. The service is delivered by a multidisciplinary team of General Practitioners, nurses and health professionals. The services provided include the following;

- consultation and treatment services
- diagnosis and screening
- nursing and midwifery
- family planning
- smoking and substance misuse advice and support
- access to community mental health services
- healthy living support including fitness, diet and nutrition
- minor surgical procedures

6.1.7 Out of Hours Service

This service provides an integrated Out of Hours Medical Service to patients within the Western Cheshire area with access to prioritised call handling, telephone triage, and clinical/medical diagnostic and forward sign posting to other health care provision.

6.1.8 Children, Young People & Families Community Health Service

This service provides a community based health service to all children and young people, including those with disabilities, inclusive of their families/carers, where appropriate (ante natal to 19 years). The service provides universal, preventative and targeted interventions to meet the physical and emotional/mental health and well-being needs of individuals and their families/carers within their communities.

The services within this specification will provide an integrated strategic approach to managing and improving the mental health and wellbeing of children and young people by:

- Providing specialist clinically-led, evidence-based mental health interventions and therapy for children and young people, including admissions avoidance and crisis resolution within current community offer.
- This will include specialisms such as Dialectical Behaviour Therapy (DBT), support for Children Looked After, children with eating disorders and other specialist interventions reducing the reliance on inpatient services.
- Supporting the development and implementation of an early intervention, prevention and recovery model and plan including those that do not meet the eligibility criteria for specialist CAMHS services.

The ethos of the service will focus on providing and driving quality, improvement, productivity and prevention, protecting and increasing the resilience of our children and young people, ensuring that specialist clinically-led services have the capacity to see those who truly require care.

Service includes;

- Health Visiting
- School Health Advisors
- Primary Mental Health Team
- Mental Health Support teams (MHST – pilot in Wirral and Cheshire)
- Child and Adolescent Community Health Teams (CAMHS)
- Eating Disorder Spoke Team
- Learning Disability Team
- Neurodevelopmental provision

6.2 Acute Mental Health Services

CWP provides acute mental health services along a care pathway that includes mental health in-patient wards and home treatment teams (HTT). The philosophy at every stage of the pathway is that the people should receive treatment and care in the least restrictive environment possible. Wherever possible, and taking into account the needs of the person and their carer(s), we aspire that this is home based acute care. The overall approach is that the person is enabled and equipped to manage their recovery from crisis in a way that best suits their needs. The recovery approach is integral to our core philosophy. CWP has developed, and continues to develop, the acute care model as the vehicle to deliver modern mental health services in line with 'New Ways of Working'. The model ensures there are dedicated consultant psychiatrists across crisis resolution home treatment and inpatient care.

The team are highly trained specialists from a variety of professional backgrounds;

- Consultant psychiatrists
- Clinical service managers
- Nursing clinical leaders
- Specialist dieticians
- Occupational therapists

- Specialist diabetes nurse
- Ward managers
- Pharmacists
- Modern matrons
- Phlebotomists
- Nurse consultant in acute care
- Administration staff
- Nurses (providing psychological interventions)
- Support workers
- Physiotherapists

6.3 Psychiatric intensive care (PICU)

CWP is an experienced provider of high quality psychiatric intensive care services in the North West. We aim to promote the emotional, behavioural, social and psychological health of people, their families and carers. Our services are led by skilled clinicians and dedicated staff that provide tailored care pathways for people and support for their families. These services are provided by multi-disciplinary teams in modern and well-equipped accommodation. We support healthcare colleagues by providing an assessment service to establish whether persons require the PICU environment. PICU services are extremely beneficial to people requiring this level of care, but other people may be better supported in different ways.

People receiving this service are from a wide range of backgrounds, including: adults with severe mental illness and high risk behaviours; mild to moderate learning disabilities in association with mental illness; and detained patients. The CWP approach involves effective care co-ordination practices. Following assessment, if a person does require care in our services they will benefit from psycho-social and specialist nursing interventions.

The team are highly trained specialists from a variety of professional backgrounds;

- Consultant psychiatrist
- Outreach worker
- Nursing clinical leaders
- Nurse therapists
- Cognitive behavioural therapists
- Physical therapists
- Occupational therapists
- Ward managers
- Modern matrons
- Head of clinical services /co-ordinators
- Specialist dieticians
- Specialist diabetes nurse
- Pharmacists
- Phlebotomists
- Administration staff

6.3 i Therapies and support

Therapies and support includes;

- Specialist risk assessment using risk management aids such as CARSO and HCR20
- Pharmacotherapy
- Cognitive Behavioural Therapy (CBT)
- Safe care
- Occupational therapy
- Motivational interviewing

- Brief therapy
- Solution-focussed therapy
- Physical health assessment
- Smoking cessation
- Nutritional assessment
- Advocacy
- Spiritual care

6.4 Low secure and forensic services

CWP is an experienced provider of Low Secure and Forensic Services. Low Secure Units deliver intensive, comprehensive, multidisciplinary treatment and care by experienced and competent staff for service users who demonstrate disturbed behaviour in the context of a serious mental disorder and who require the provision of security. This is according to an agreed Philosophy of Unit operation underpinned by the principles of rehabilitation and risk management. Such units aim to provide a homely secure environment, which has occupational and recreational opportunities and links with community facilities. Patients will be detained under the Mental Health Act and may be restricted on legal grounds needing rehabilitation usually for up to 2 or 5 years.

The Team consists of highly trained Specialists from a variety of professional backgrounds which include;

- Consultant psychiatrist
- Occupational therapists
- Social Worker
- Nurse therapists
- Physical therapists
- Unit managers
- Modern matron
- Technical instructors
- Nurse clinical leads
- Phlebotomists
- Pharmacists
- Care Co-ordinators

The Alderley Unit is a Regional Low Secure all-male Inpatient Unit in Nether Alderley, which provides a service to individuals with a diagnosis of learning disability. The service is for individuals who have been convicted of a criminal offence and/or are considered at risk of offending.

Saddlebridge Recovery Centre is a Regional Low Secure all male inpatient unit in Nether Alderley which provides a service for individuals with a diagnosis of severe and enduring mental illness who have been convicted of a criminal offence and/or are considered at risk of offending.

In addition, the Forensic Outreach Team is a specialist team for adults with learning disabilities. The team works with Practitioners in the specialist Community Learning Disability Teams and other professionals in Health and Social Services, and the Criminal Justice System. The combined aim is to reduce the risk of re-offending and enable people to live in the least restrictive environment possible.

A range of therapies and support are provided within all the above services.

Service development and delivery

Clinical networks are developing across the service to ensure a strategic approach in the vision, direction and continued improvement of service delivery. These networks include;

- Health access
- Communication
- Challenging Behaviour
- Forensic
- Mental Health

6.5 High dependency rehabilitation services

CWP is at the forefront of developing high dependency rehabilitation services, closer to home, for adults (between the ages of 18 - 64 years) with a diagnosis of severe and enduring mental illness with complex needs. The in-patient services are provided by skilled clinicians and dedicated staff that offer a personally tailored rehabilitation programme focussing on independent living skills. These services are provided by multi-disciplinary teams in modern and well equipped accommodation.

The principles of 'recovery' form the central framework of our philosophy of care. The aim is to maximise a person's quality of life and this is done through programmes where rehabilitation and social inclusion are key objectives. The service is based around the ethos of collaborative working with the person experiencing the illness, their carers and rehabilitation practitioners. The holistic assessment of the needs of a person experiencing severe mental illness is also paramount. This includes the person's social, spiritual and cultural needs and a willingness to work with the person and carers, ensuring the best possible clinical and social outcomes for that person.

The promotion of independence and autonomy are fundamental to this process and encourage people to have hope for the future which in turn leads to successful community living with appropriate support.

The team are highly trained specialists from a variety of professional backgrounds;

- Consultant psychiatrist
- Head of Clinical services
- Occupational therapists
- Nurse therapists
- Physical therapists
- Unit managers
- Modern matron
- Technical instructors
- Nurse clinical leads
- Phlebotomists
- Pharmacists
- Care co-ordinators

Referrals to these services are available for known people (already in secondary care) who fulfil the inclusion criteria in the service specifications and require intensive rehabilitation and a care setting with high levels of supervision and intervention.

6.5 i Therapies and support

- Rehabilitation
- Self-help / wellness / prevention
- Carer support groups
- Specialist risk assessment

- Self-harm interventions and coping strategies
- Management of challenging behaviour & de-escalation
- Crisis intervention
- WRAP (wellness recovery action planning)
- Pharmacotherapy
- Cognitive behavioural therapy
- Psycho-social therapy
- Dialectical behavioural therapy
- Occupational therapy
- Vocational / educational activities
- Healthy lifestyle support
- Psychological therapies

6.6 Home Treatment Teams

Home treatment teams (HHT) are specialist teams of mental health professionals who can respond to psychiatric emergencies by providing intensive home based treatment and support as a safe alternative to admission as an in-patient. They also act as the "gatekeepers" who facilitate admission to in-patient care and who facilitate early discharge by providing intensive community based support. If hospital admission is required then home treatment aims to keep admission to a minimum by providing early discharge in agreement with the person. People can be referred to the team through different routes including their community mental health team (CMHT).

The team operate a 24 hour, 7 day a week service to adults with a serious mental illness in an acute crisis that would otherwise require hospital admission and has a range of staff including mental health nurses, psychiatrists, social workers and occupational therapists.

6.7 Community Mental Health

CWP community mental health teams (CMHTs) act as the entry point into a number of services for adult and older people. The teams provide assessments and care for people with severe and enduring mental illnesses. They are multi-disciplinary, which means they have staff from a range of different health professions which enables them to provide holistic care. CWP community mental health teams offer a care programme approach which enables staff to care for persons more effectively and involve them in their own care. All people involved in this programme have a copy of their own care plan and have a designated care co-ordinator who regularly reviews their plan.

Community mental health teams consist of a range of skilled staff including;

- Team managers
- Consultant psychiatrists
- A range of other grades of psychiatrists
- Approved social workers
- Psychologists
- Social workers
- Occupational therapists
- Clinical leads
- Community mental health nurses
- Support workers
- Administration staff

6.7 i Therapies and support

Community mental health teams offer a range of treatments such as social interventions, and education.

In addition they;

- Coordinate care
- Help people/carers receive the care/service they require
- Explain the care plan
- Visit people in a variety of places, including at home
- Support people to be as independent as is possible
- Monitor medication
- Help people to move on e.g. rehabilitation interventions, getting back to work or education
- Help people to be less socially isolated
- Monitor people in the outpatient department
- Provide support with smoking cessation

6.8 Liaison psychiatry

Liaison psychiatry is the sub–speciality of psychiatry that focuses on the interface between psychological and physical health in acute hospitals. CWP’s liaison services are amongst the most experienced and oldest established in the UK. They are led by skilled clinicians and dedicated staff that support people and their families in managing the complex interplay between physical and psychological problems. Our role extends beyond patient contact into the education of staff in acute trusts and developing policy to promote the needs of a person with mental health symptoms presenting to a general hospital. The liaison psychiatry service endeavours to provide the highest standard of care and strive to maintain independence, whilst acknowledging the choices and rights of the person. CWP’s liaison psychiatry service is delivered by a multi-disciplinary team based within four acute trust sites and one specialised cancer hospital.

On the Wirral, the psychological medicine service provides assessment and care to out-patients and in-patients in the specialised cancer hospital. Referrals are made by oncology consultants and nurses as well as general practitioners. The most common reasons for referral are to support people struggling in coming to terms with a diagnosis of cancer; to offer advice about psychotropic medication and to share care in people with complex needs. The psychological medicine service works particularly closely with oncology specialist nurses and the palliative care service.

In West Cheshire, the liaison psychiatry team also provide a Hospital Alcohol Liaison Service. The workers can offer a range of interventions to inpatients and can arrange for assessment on the wards or in A&E. They can also provide assessment and Interventions in the community if they have already been discharged.

Treatment is within the framework of national guidelines and psychosocial interventions such as motivational interviewing which is utilised to support behavioural change. We work in close liaison with other specialists, as agreed with the client.

These commonly include;

- Community Pharmacists
- Mental Health Services (dual diagnosis)
- Specialist Liver Units for hepatitis treatment
- Medical Wards, A&E and Maternity Services
- Probation and Criminal Justice Schemes
- Social Care/Child and Family Services

6.8 i Therapies and support

CWP's liaison psychiatry service provides assessment and evidence based treatments, caring for people with many different needs:

- People presenting to accident and emergency departments with a mental health crisis
- People presenting to hospital after an episode of self-harm
- People with physical symptoms that are medically unexplained
- People struggling with the psychological impact of physical disease or treatment
- People with confusion

6.9 Dementia services

CWP is an experienced provider of comprehensive, multidisciplinary care for older adults with mental health problems in collaboration with partner organisations. We aim to maximise the independence of people whilst promoting their emotional, behavioural, social and psychological health. We also recognise the importance of supporting families and carers. Our older people's services provide specialist community mental health teams, memory assessment services, in-patient beds (with separate provision for people with functional and organic illnesses) and access to psychological therapies. Organic illnesses include dementia and functional illnesses include illnesses such as depression, schizophrenia and bipolar affective disorder.

The teams include highly trained professionals from a variety of professional backgrounds;

- Consultant psychiatrists
- Clinical psychologists
- Nurses
- Matrons
- Occupational therapists
- Ward managers
- Junior medical staff
- Psychological therapists
- Specialist nurses
- Pharmacists
- Physiotherapists
- Heads of Clinical Service
- Administrative staff

6.9 i Therapies and support

Older people's mental health services within CWP aim to provide a comprehensive, integrated service for people with both functional and organic illnesses. We recognise that older people need specialist services that are organised, trained and skilled to meet their needs. We promote fair access to mental health services for older people and strive to challenge direct and indirect discrimination against older people. Our service works with partner organisations to promote the mental well-being of older adults and protect vulnerable older people and our therapies and support include;

- Specialist assessment and diagnosis
- Pharmacotherapy
- Psychological therapies
- Smoking cessation
- Occupational therapy
- Education

6.10 Adult Cognitive Assessment Team (Early Onset Dementia & Alcohol Related Brain Impairment)

The EOD/ARBD team provides a Wirral-wide service - estimated population size 360,000 to people under 65 years with a diagnosis of EOD and or ARBD. This includes complex, co-morbid physical and mental health needs and in the case of ARBD, significant problems with long term alcohol use. ARBD referrals are assessed after a period of detoxification and physical health screening/care. The team has a clear pathway for assessing EOD/ARBD people who are presenting as delayed discharges from Wirral Hospital Trust or who have presented with three short hospital admissions. Referrals for these cases are via the Psychiatric Liaison team. The team provides an assessment function offering expertise in early onset dementia, cognitive impairment and alcohol related brain damage. The team may offer a consultation role whilst the referring agent maintains care co-ordination.

The aims of the service are;

- To promote early recognition and intervention of persons with EOD/ARBD.
- To carry out assessments of people referred within an agreed timescale.
- To offer evidenced based interventions to people with diagnosed EOD/ARBD.
- To provide long term care for people with severe chronic conditions, where the primary problem is related to EOD/ARBD.
- To monitor clinical outcomes, long term effectiveness, views of the person, families and carers and use these to guide service delivery.

6.11 Early Intervention Mental Health Service (EI)

The early intervention team is a specialist mental health service offering intensive evidence-based support to persons typically aged 14-65 experiencing a first episode of a psychotic disorder.

All persons referred to the early intervention team should be;

- Aged 14 – 65 years
- Registered with a GP within the designated locality for that intervention service
- Experiencing psychotic symptoms for the first time

In the event of receiving an emergency referral for a person outside the area, an assessment and any essential treatment will commence with appropriate support provided until transfer back to services within the person's home area can be facilitated. People who have previously received treatment for other mental health difficulties or have previously experienced BLIPS (brief, limited or intermittent psychotic symptoms lasting for less than one week and spontaneously resolving) may also be referred for assessment.

The team is multi-disciplinary and is made up of highly trained specialists from a variety of professional backgrounds including;

- Support workers
- Occupational therapists
- Community mental health nurses
- Clinical psychologists
- Clinical leads
- Team managers
- Consultant psychiatrists.

6.11 i Therapies and support

The services emphasis is placed upon 'maintaining ordinary lives' with the focus being enablement and recovery. Working within the ethos of early interventions the teams provide an intensive and assertive three-year package of care during the 'critical period'.

The aims of the service are to;

- Reduce stigma associated with psychosis
- Improve professional and lay person's awareness of the symptoms of psychosis and the need for early intervention
- Reduce the length of time young people remain undiagnosed and untreated
- Develop meaningful engagement, provide evidence-based interventions and promote recovery during the early phase of illness
- Increase stability in the lives of persons, facilitate development and provide opportunities for personal fulfilment
- Provide a person centred service that effectively integrates child, adolescent and adult mental health services and works in partnership with primary care, education, social services, youth and other services
- At the end of the treatment period ensure that the care is transferred thoughtfully and effectively

Rehabilitation is provided by the occupational therapists in conjunction with support workers to encourage people to return to activities for example using public transport, going shopping and accessing college or employment.

The team is also involved in the provision of mental health literacy programmes and providing mental health awareness sessions for other agencies, the general public and young people. Other therapies and support include;

- Specialist mental health assessment
- Pharmacotherapy and medication management
- Cognitive behaviour therapy
- Family intervention including carer support groups
- Relapse management
- Physical health assessment
- Smoking cessation
- Substance use assessment
- Vocational training

6.12 Eating disorder services

CWP provides the only NHS in-patient eating disorder accommodation in the North West, as well as a cutting-edge young people's service with pioneering care programmes. Our services are led by world-renowned clinicians and dedicated staff that put the person and their family at the heart of care planning. We provide support for both adults and young people with eating disorders. Our services are well integrated with regular liaison concerning care pathways, specific treatments and new techniques. We provide modern and well-equipped accommodation, multi-disciplinary teams and the assurance of years of well-developed expertise across a range of services.

6.13 Primary Care Psychological Therapies

NICE Guidelines recommend a stepped care approach which matches the intervention offered to the severity of the presenting problem. This offers the person the least invasive/intensive appropriate interventions. It gives the ability to step up or down the intervention if appropriate to the client. Within Primary Care Psychological Therapies, the service deals with Steps 2-4.

Step 1 offer the concept of “watchful waiting” as is usually carried out by the persons GP.

Step 2 offers psycho-education (including telephone treatment and Computerised CBT (ccbt) to people with mild psychological problems associated with anxiety and depression.

Step 3 offers time limited CBT for people with mild to moderate anxiety and depression provided by the HIT's. In addition, Counselling at Step 3 offers time limited counselling for patients with a range of moderate psychological problems including loss issues and relationship problems.

Step 4 offers longer term interventions for people with complex psychological problems.

Step 5 offers psychological support to people requiring secondary care mental health services.

Staff work collaboratively with persons towards the achievement of mutually agreed goals.

The team includes;

- Counsellors
- Clinical psychologists
- Psychological therapists
- Consultant clinical psychologists
- Associated support staff
- Psychotherapists
- Counselling psychologists

Therapy: the purpose of the service is to reduce psychological distress and to enhance and promote psychological well-being.

Consultation: this process looks at difficulties from a broad psychological perspective, with a view to building on a person's resources and strengths.

In Central Cheshire and Western Cheshire, CWP provides IAPT (Improving Access to Psychological Therapies) services; both services are commissioned by the local clinical commissioning groups.

In East Cheshire, CWP provides a Step 4, Complex Psychological Service.

In Warrington, CWP provides IAPT services in conjunction with Mental Health Matters; this service is commissioned by the local clinical commissioning group.

6.13 i Therapies and support

Clinicians in the service are trained to assess and offer a range of therapies that include;

- Cognitive behavioural therapy
- Dialectic behavioural therapy
- Counselling
- CAT (Cognitive Analytical Therapy)
- other specialist approaches.

6.14 Children and young people's mental health (CAMHS)

Child and adolescent mental health services (CAMHS) are provided, on both an in-patient and out-patient basis, to children and adolescents who are suffering from mental health problems. These problems can be anorexia nervosa, depression, psychosis, attention deficit hyperactivity disorder, autism - and also children with learning disabilities who are suffering from mental health problems. People receiving a service are children and young people aged from 0 - 19 years, as well as their families and carers. CWP CAMHS provides services to residents of Cheshire and Wirral across Tiers 1 - 4. CWP CAMHS provide training and consultation to Tier 1 via Tier 2. Services are also provided to residents of Merseyside for Tier 4. Working in collaboration with other agencies and clients, CWP CAMHS aims to create an environment in which professionals can work with people towards their empowerment, so that they take a key role in their own treatment programme.

CWP CAMHS staff are highly trained and specialise in a variety of professional backgrounds;

- Consultant psychiatrists
- Consultant nurses
- Registered mental health and learning disability nurses
- Clinical support workers
- Consultant clinical psychologists/clinical and assistant psychologists
- Consultant child and family therapists
- Family therapists
- Art therapists
- Cognitive behavioural therapists
- Ward and senior manager
- Modern matrons
- Head of Clinical Services /co-ordinators
- Child psychotherapists
- Administration staff

6.14 i Therapies and support

Tier 1/ Thrive - Coping

CWP CAMHS staff can provide consultation and training to Tier 1 (universal CYP) professionals such as health visitors and school nurses, to promote early diagnosis of mental health problems in children and young people.

Tier 2/ Thrive – Getting Help

Services include primary mental health workers and other experienced professionals working closely with Tier 1 and Tier 3 colleagues in the local community.

Tier 3/ Thrive – Getting more help

These services are provided by multi-disciplinary teams working with key partner agencies and are available for 0 - 19 year olds.

This includes community based assessment, interventions and treatment for children and young people up to 19 years old with mental health issues and complex learning needs, including learning disabilities.

CWP also works in partnership with youth offending services and drug and alcohol services, providing mental health assessments and interventions.

The following is a general list of specialist therapies and support provided at Tier 3:

- Cognitive behavioural therapy
- Solution focused behavioural therapy
- Dialectic behavioural therapy

- Webster-Stratton
- Parent training
- Group work
- Anger management/social skills
- Crisis management
- Parent/child therapy
- Family work and formal family therapy
- Brief counselling
- Medication
- Individual psychotherapy
- Inpatient admission for crisis intervention

Tier 4/ Getting Risk Support

Tier 4 CAMHS includes assessment and treatment services for young people with complex, persistent or severe mental health needs and disorders.

This service includes the Adolescent in-patient unit at Ancora House which provides in-patient beds for assessment and treatment for young people (13-18 years).

It also includes the Specialist Eating Disorder Service (Cheshire and Merseyside Eating Disorder Service - CHEDS). This service is for young people between the ages of 13-18 years. It is a specialist service comprising out-patient and day-patient services, as well as in-patient accommodation. Assertive Outreach and Home based treatment services are also provided in the community by the Home Based Therapy Service, this is a regional service.

The following is a general list of specialist therapies and support provided at Tier 4:

- Emergency and planned assessments
- Team assessments
- Inpatient admission – planned and emergency admissions
- Inpatient, day patient and outpatient eating disorders service
- Group and individual therapy
- A range of therapeutic approaches are provided including, cognitive behavioural therapy, dialectic behavioural therapy, cognitive analytical therapy and art therapy
- Education provision for inpatients
- Family interventions/support
- Psychopharmacology
- Dietetic therapy
- Multi Family Therapy
- Dialectal Behaviour Therapy

The following is a list of specialist therapies and support provided to young people with learning disabilities and mental health problems;

- Parenting courses
- Anger management/social skills
- Family therapy
- Brief intervention
- Drop ins at special schools / child development centres interventions
- Liaison and consultation with partner agencies
- Training

6.15 Learning Disability Services

CWP is an experienced provider of learning disability services, which are delivered by multi professional staff in community and inpatient settings. The aim is to provide a person-centred approach for adults with a learning disability and their carers, thus ensuring that person's needs and preferences influence the health care they receive. People's needs may include mental health issues, complex health needs, and communication difficulties, physical difficulties, challenging behaviour, epilepsy, autism, forensic issues and other specialist support requirements.

Staff are experienced in providing dynamic and robust modern learning disability services and these are led by highly trained specialists from a variety of professional backgrounds including;

- Clinical Director
- Community learning disability nurses
- Occupational therapists
- Physiotherapists
- Health facilitators
- Psychiatrists
- Clinical psychologists
- Speech and language therapists
- Clinical services managers
- Consultant nurses
- Dedicated specialist inpatient staff teams, consisting of unit managers, deputy managers, staff nurses, and support workers
- Modern matron
- Dedicated health respite teams consisting of unit managers, staff nurses and support workers.
- Administration staff
- Care managers and social workers employed by local authorities

Community teams

The role of each community team includes supporting people with learning disabilities to lead full and healthy lives within their local community. The team is made up of a full range of health professionals and social workers who specialise in working with people with learning disabilities.

Assessment and treatment units

There are occasions when a person's health or circumstances mean that they cannot continue to remain in their own home and need a short period of specialist support within an adult acute Assessment and Treatment Unit. 24 hour care is provided in a therapeutic environment with specialist staff and a range of therapies, psychological therapies and support programmes.

Respite care

This provides short breaks for adults with learning disabilities and additional health needs.

All Age Disability Service

On the Wirral, CWP provides an integrated health and social delivery model which supports disabled children through one clear pathway, with a consolidated approach based around the family from birth to independence. It also ensures an all age approach so that disabled residents have one coherent pathway of support which has clear accountability. The critical stage of transition from child to adulthood, often the most difficult time in a disabled person's life, will be supported.

7. Safeguarding Children and Safeguarding Adults Service

This team provides support, advise, supervision and training to staff on Safeguarding Children and Adults. The service includes the following specialities:

- Head of Adult and Children Safeguarding
- Nurse Specialist for children in care
- Nurse Specialist for Child Death Overview Panel/ Paediatric Liaison
- Nurse Specialist for Safeguarding Children
- Named Nurse for Safeguarding Children
- Nurse Specialist for Adult Safeguarding
- Named Nurse for Adult Safeguarding

8. Infection Prevention and Control

The infection prevention and control service provides advice and support across the Trust, to other Primary Care Providers and the public in the management of infection. They also provide assurance on mandatory surveillance and statutory infection control requirements. They provide education and training and act in the capacity of health protection field workers managing outbreaks of infection in the community reporting to Cheshire and Merseyside Health Protection Agency.

9. Continuing Health Care

The continuing health care (CHC) service is responsible for the individual commissioning of care for patients, dealing with the administration of referrals, lead case managements and MDTs alongside co-ordinating CHC/FNC panels and make decisions on eligibility for care. They also provide clinical reviews for the continued eligibility for care. The service is commissioned by Wirral CCG and the packages of care will be delivered by external providers. There are annual reviews of the provider's delivery of the service which update the CCG on performance. The service also provides accounting and financial control, devising a care plan budget alongside brokerage of care via third part service level agreements.
